

SLU PROJECT TITLE

date: "09 October, 2024"

Input values

You provided the following values:

- **pH:** NA
- **Drymatter:** NA g/L
- **Temperature:** NA C
- **Applied Urea:** NA kg/m^3

Given the input data the following are calculated:

Duration of treatment: NA days

Application rate: NA m^3/ha

Land extension: NA ha

To Do:

expand text, add logo and images. Add calculations
